Assembly and Use of Blending Rod or Wire Wisk

figure 1

figure 2

figure 3

- 1 Ensure the motor base is unplugged. Attach blending rod or wire whisk to motor base by holding the motor base with the arrows slightly to the right or left of the arrows on either attachment. Turn the motor base while holding the blending rod firmly until the attachment snaps into place. (see figures 1 and 2)
 - 2 Place food in suitable container for mixing (beaker, bowl, or stockpot). For best results solid foods should be no larger than 1/2" cubes.
 - 3 Plug into 120-volt 60 Hz AC only outlet.
 - 4 Immerse the blending rod or whisk into your ingredients. Turn the speed selector to "MIN", press the ON/Turbo switch to begin blending; then gradually increase speed, as needed. (see figure 3) Slowly move the rod up, down and sideways through the food. Note: Never lift the blending rod or wire whisk attachment out of your ingredients while the unit is running to avoid splatter of your food.
- Note:** At any time during the blending process, you can press the Turbo button to increase the blender to its maximum speed
- 6 Do not operate the motor continuously for more than one minute when using the blending rod or wire whisk, simply pulse the selected speed to your desired consistency.
 - 7 When you are finished, simply release the ON/Turbo switch, unplug the motor base, twist the selected blending attachment while holding the motor base to remove.

Suggested Uses

Your Immersion Blender comes with a fixed multi-purpose blade, and an extra long shaft which allows the unit to be used in deep pots, or tall containers.

Caution: Blades are sharp. Handle with care.

Functions	Speed
Beat cream, whip egg whites, puddings, sauces, frostings and other airy, foamy mixtures. When using, move blending rod up and down to draw air in. Use a tall, narrow container for best results when foaming milk, making cream and whipping egg whites.	Minimum
Mix and stir shakes, drinks, omelet batters, sauces and emulsions. Use for pancake batter, gravies and dressings.	Medium to Maximum
Cut, chop, and crush raw or cooked meat and hard vegetables. Grind cooked meat for use in recipes such as casseroles or chicken salad.	Maximum
Chop, crush, and mash vegetables, and fruit for baby food, soups and sauces.	Medium to Maximum

Assembly and Use of Food Chopper Attachment

- 1 Ensure the motor base is unplugged.
- 2 Assemble chopper bowl by first placing the chopping blade onto the blade shaft in the chopper bowl. (see figure 1) Then place food in bowl. For best results, solid foods should be no larger than 1/2" cubes.
- 3 Place the chopper bowl lid on top of the chopper bowl. (see figure 2)
- 4 Attach the motor base to the chopping bowl as follows: Hold the cover firmly with one hand, while holding the motor base with the arrows slightly to the right or left. Turn the motor base until it snaps into place. (see figure 3).
- 5 Plug into 120-volt 60 Hz AC only outlet.
- 6 Always use slight downward pressure when operating the motor base, while the other hand is placed firmly on the bowl cover to avoid the bowl from moving. Always ensure your speed selector is on "MAX" when chopping. Use a pulse action when chopping by pressing and releasing ON/Turbo switch.
- 7 Do not operate the motor continuously for more than 15 seconds when using chopper attachment, otherwise food will be too finely chopped.
- 8 When you are finished, simply release the ON/Turbo switch, unplug the motor base, and detach it from the chopping bowl lid.

Helpful Hints

- The hand blender can be used in hot liquids. Always use care when using in hot liquids. To avoid splashing when using the hand blender in a saucepan, insert the hand blender into the pan first, set the speed dial to "MIN", and then press the ON/OFF switch for operation, slowly raising the speed to your desired setting.
Caution: Do not tilt or lift the Immersion Blender out of the pan while the motor is running, as a serious burn or injury can occur from food splatter.
- To puree foods, a certain amount of liquid is needed. Add cooking liquid, broth, juice, milk, or cream, until desired consistency is reached.
- For thorough blending, move blade up and down in mixture until smooth.
- You will achieve better mixing results if you use deep, tall containers.
- For easy cleanup, unplug blender and rinse under running water immediately after using.
- Place liquid ingredients into the beaker first unless recipe specifically states otherwise.
- Before turning the appliance on, immerse the hand blender attachment into the prepared ingredients, thus ensuring they will not spill over.
- For greater efficiency, move the appliance in small outward spiraling circles while mixing, without touching the bottom of the beaker with the hand blender attachment.
- The hand blender attachment cannot blend hard or fibrous ingredients unless they are in less than 1/2" pieces, soft ones into 1/2 - 1" pieces.
- Some foods require a small amount of liquid to allow them to move freely around the blades. Soft or wetter foods require less liquid, while dry ingredients require more liquid. Add the liquid a little at a time until the mix gains the required consistency.
- When using the hand blender, ensure the blades are covered to avoid splashing.

Care & Cleaning

- 1 Unplug the unit from the outlet. Remove the blender rod attachment from the motor base for cleaning by turning it to the right or left. Clean the Blending Rod in warm, soapy water. **Caution: Blades are sharp. Handle with care. Do not immerse the bowl cover, motor base, cord or plug in water. Wipe the motor base and bowl cover with a damp cloth only.**
- 2 If food particles are not easily rinsed off the blender rod or attachment, place a drop of dish detergent in a mixing container with one cup of warm water. Plug cord into outlet. Immerse the blade portion and metal rod and operate the unit for about 10 seconds. Unplug, rinse under hot water, then dry.
- 3 Simply wipe the motor base clean with a damp cloth. Never hold the motor base under running water or immerse it in any liquid.
- 4 Do not use pointed or sharp objects to remove food particles.
- 5 To clean the food chopper attachment, remove the bowl cover first, then the chopping blade. Do not immerse the chopper bowl cover in water. Wipe with a damp cloth using dishwashing liquid if necessary. The chopper bowl and chopping blade can be washed in warm, soapy water. Do not use abrasive or harsh cleansers.

Important: Do not try to sharpen the cutting edges of any blades. They have been precision honed at the factory and will be damaged by any attempted sharpening.

- 1 Prepare the crabcakes: In a 10-inch skillet, heat the olive oil. Sauté the red and yellow peppers and the onion until the onion is translucent and the peppers are tender, 10 to 15 minutes. Transfer to a large bowl and let cool.

Sautéed Crabcakes (cont'd.)

- 2 In a small saucepan, reduce the cream with the jalapeno until 1/2 cup remains. Cool and add to the onion mixture. Stir in the chives, dill, Italian parsley, thyme, salt and cayenne pepper. Stir in the egg and 1/2 cup each bread crumbs and almond meal. Gently fold in the crabmeat. Mixture will be lumpy. Correct seasonings to taste. Divide the mixture into 12 crabcakes, about 2 1/2 ounces each.

- 4 Prepare the sauce: In a 10-inch skillet, melt 3 tablespoons of butter. Sauté the pepper, onion, garlic and thyme until the onion is translucent, about 10 minutes. Deglaze with the wine and cook until 3 tablespoons liquid remain. Remove from heat and puree using the Immersion Blender until smooth. Strain, return to a clean pan and reheat. Whisk in the remaining 2 tablespoons of butter and the lemon juice and season to taste with salt and pepper. Keep warm.
- 5 Scrape the contents of the skillet into a blender and purée until smooth. Strain, return to a clean pan and reheat. Whisk in the remaining 2 tablespoons of butter and the lemon juice and season to taste with salt and pepper. Keep warm.
- 6 When ready to serve, in 1 or 2 skillets, melt the 2 tablespoons butter with the vegetable oil. Over medium-high heat, sauté the crabcakes until golden brown, about 4 minutes on each side, using additional oil as necessary. Drain on paper towels.

PRESENTATION

Divide the salad greens among 6 large plates. Arrange 2 crabcakes on the greens, drizzle sauce around the greens and on top of the crabcakes. Serve immediately.

TO PREPARE AHEAD

Through step 4. In step 5, return the sauce to a clean pan but reheat over a low flame and continue with the recipe when ready to serve.

Note: Coarsely ground or chopped uncooked shrimp can be substituted for the crabmeat.

*To make the almond meal, grind blanched almonds in food chopper, being careful that you don't overgrind - you want the texture of fine bread crumbs.

Aioli

This classic Provençal mayonnaise takes its name from the French word for its key ingredient, garlic. If you have health concerns about making mayonnaise from raw eggs, consider this statement from the American Egg Board: "There have been warnings against consuming raw or lightly cooked eggs on the grounds that the egg may be contaminated with Salmonella, a bacteria responsible for a type of foodborne illness. Healthy people need to remember that there is a very small risk and treat eggs and other raw animal foods accordingly. Use only properly refrigerated, clean, sound-shelled, fresh, grade AA or A eggs. Avoid mixing yolks and whites with the shell." Alternatively, start with about 1 1/2 cups of good-quality bottled mayonnaise and blend into it pureed garlic, Dijon mustard, and lemon juice.

Makes about 2 cups

INGREDIENTS

1 tablespoon chopped garlic
 1/4 cup chopped basil
 2 extra-large raw egg yolks
 Salt
 Freshly ground white pepper
 1 tablespoon Dijon mustard
 1 1/2 to 2 cups safflower oil
 1 tablespoon lemon juice

METHOD

- 1 Combine all ingredients in beaker and blend using Immersion Blender pressing the TURBO button.

Recipe courtesy Wolfgang Puck

Fresh Tomato Salsa (Salsa Mexicana or Pico De Gallo)

Makes 2 cups

INGREDIENTS

1 pound or 8 Campari tomatoes (or other very ripe, fragrant tomatoes)
 Juice of 1 lime
 3 Serrano chiles
 1/3 cup loosely packed cilantro leaves
 1/2 teaspoon kosher salt or 1/4 teaspoon iodized salt
 1/2 of a small white onion, peeled and quartered
 1 green onion, cut into 2 inch lengths

METHOD

- 1 Combine all ingredients into Immersion Chopper Bowl cutting any of the tomatoes that are too big to fit. Add top and motor. Pulse to chop as chunky or smooth as you like it. Serve immediately. Salsa should be eaten within an hour or so or the onions get too strong and the perfume of the cilantro dissipates.

Main Dishes, Side Dishes, Sauces & Toppings

Pizza Dough

Serves 2 to 4

INGREDIENTS

- 1 1/2 cups all purpose flour
- 1 teaspoon kosher salt or 1/2 teaspoon iodized salt
- 1 1/2 teaspoons honey
- 1 tablespoon olive oil
- 1/2 cup lukewarm water
- 1 1/2 teaspoons yeast

METHOD

- 1 Combine flour and salt in Immersion Chopper Bowl. Set aside.
- 2 In a small bowl, combine the honey, oil, water and yeast. Stir to dissolve. Pour all of the yeast mixture into the Chopper Bowl containing the flour and salt. Attach top and hold the TURBO button down for 15 seconds. Remove dough ball and knead by hand for a minute. If it is very sticky, add a bit of flour. Cover with a towel and let rest for 40 minutes, or cover and refrigerate up to 24 hours. Knead briefly to deflate and form into 1 or 2 balls. Let it rest for 15 minute to relax dough.
- 3 Shape as desired, your pizza does not have to be round. Have fun with it and shape it thick or thin, football shaped or round and neat. It will be delicious. Top your pizza with your favorite toppings. Bake in a very hot, 500°F preheated oven for 15-20 minutes or until brown and crispy. Serve hot.

Note: Vary the dough by adding fresh herbs before mixing. Toppings are endless. I love basil pesto, mozzarella and Parmesan or ricotta with sliced garlic, parmesan and tomatoes.

Lobster Ravioli with Fresh Dill Sauce

Serves 6 to 8

INGREDIENTS

1 1/2 pounds fresh pasta dough
1 or 2 eggs, beaten lightly, for egg wash
Semolina

Mousse

1 pound fresh sea scallops, side muscles removed
1 egg
1 cup very cold heavy cream
1/2 teaspoon cayenne pepper
1 tablespoon chopped fresh dill
1 teaspoon salt
1 teaspoon freshly ground white pepper
1 small lobster, cooked

Sauce

2 cups dry white wine
1 bunch fresh dill
2 large shallots, minced
1 cup heavy cream
1 pound unsalted butter
salt
freshly ground white pepper
fresh lemon juice

Vegetables

2 tablespoons unsalted butter
1 carrot, cut into julienne strips
1 stalk celery, cut into julienne strips
1 leek, white part only, cut into julienne strips
salt
freshly ground white pepper
reserved dill and lobster meat

METHOD

- 1 Prepare the mousse: In a deep 2 quart bowl, puree the scallops and egg using the Immersion Blender. With the motor running, slowly pour in the cream, then add the cayenne, dill, salt and pepper. Cover bowl and chill.
- 2 Remove the meat from the lobster tail and claws and dice it fine. Fold 1/4 of the meat into the mousse. Reserve the remaining meat for the sauce.

Lobster Ravioli with Fresh Dill Sauce (cont.)

- 3 On a floured surface, roll the pasta as thin as possible. Brush half of the dough with the egg wash. Place 30 mounds of the mousse, on the pasta, 3 inches apart. Cover the mounds with the uneggwashed pasta sheet and press the dough together around each ravioli. With a ravioli cutter or a large, sharp knife cut the ravioli apart. Dust a tray with semolina and place the ravioli on the tray. Refrigerate.
- 4 At dinnertime, while you make the sauce, bring a large pot of water to a boil with a little oil.
- 5 Prepare the sauce: In a saucepan, reduce the wine with 1 sprig of the dill and the minced shallot until 1/4 cup liquid remains. Add the cream and reduce it by half. Slowly whisk in the butter, a little at a time, until all of it is incorporated. Season to taste with salt, pepper and lemon juice. Set the sauce aside and keep it warm.
- 6 Chop the remaining dill sprigs into 1/4 inch pieces, reserving 6 small sprigs for the final garnish. Set aside.
- 7 Prepare the vegetables: Heat a sauté pan over medium heat and add the butter. When it foams, add the julienne strips of vegetables and sauté them until al dente. Season to taste with salt and pepper and reserve.
- 8 Add a little salt to the water, then the ravioli, and cook for 5 to 6 minutes. Cut 1 ravioli open to see if the mousse is done. It should be barely cooked through as it will continue to cook in the sauce. Drain the ravioli.
- 9 Add the ravioli to the sauce with the vegetables and the reserved lobster meat and the chopped dill and heat just to the boiling point.

PRESENTATION

Divide the ravioli among heated dinner plates. Spoon the sauce over them and garnish each plate with a small sprig of dill in the center. Serve immediately.

Artichoke Mousse

Serves 4

INGREDIENTS

4 or 5 very large artichokes
2 lemons, halved
4 tablespoons (2 ounces) unsalted butter, at room temperature
about 2 tablespoons heavy cream
salt
freshly ground pepper

METHOD

- 1 Trim away the leaves from the artichokes to expose the bottoms. Rub the cut surfaces with lemon to prevent oxidation.
- 2 Bring a large pot of salted water to a boil. Add the juice of half a lemon and the artichoke bottoms, cover with a linen towel or several sheets of paper towels and cook until the artichokes are tender, 40 to 50 minutes.
- 3 Remove the artichokes and drain. Remove and discard the fiber from the center of the chokes.
- 4 Use the Immersion Blender to purée the artichoke bottoms with the butter. Pass the purée through a tamis or fine strainer into a heavy saucepan and heat through. Stir in the cream and correct the seasonings with salt, pepper and lemon juice.

PRESENTATION

Serve as a side dish to accompany lamb or chicken or use as a bed for sliced meats and poultry.

Note: To reheat, place the mousse in a heavy saucepan, add 1 tablespoon each of unsalted butter and heavy cream. Heat slowly, stirring constantly.

Fresh Basil Pesto

Makes 1 1/2 cups

INGREDIENTS

1 tablespoons garlic cloves
2 tablespoons toasted pine nuts
2 tablespoons fresh grated Parmesan cheese
Juice from half a lemon
1/2 teaspoon kosher salt
1 cup packed whole basil leaves
1 cup excellent quality fruity olive oil

- 1 Combine everything but oil in the Immersion Chopper Bowl. Pulse to chop. Add 1/2 of the olive oil and puree till smooth adding more oil as needed. Carefully taste and correct seasoning. Store airtight for a few days or freeze to preserve color and fresh taste for up to 1 month..

Note: Having pesto on hand is a wonderful way to add a huge boost of flavor to whatever you are making. I love it on sandwiches, pasta, pizza, salad dressings, crostinis, even on crackers and raw veggies. You can use all the same ingredients listed here, swap out the basil for something else and create many great pestos. I love sun-dried tomatoes, or ricotta cheese, black olives, beets, even other herbs like sage.
